Dreer's Wholesale Price List

JANUARY—1922—JUNE

WE take pleasure in presenting to the Trade, this, our Wholesale Price List for the Spring of 1922, and are pleased to say that notwithstanding the continuance of many difficult conditions, we feel reasonably sure of being able to take care of the requirements of our customers almost as usual.

We strongly advise our customers to send in their orders for Seeds, Plants and Bulbs as early as possible, not only to avoid the Spring rush, but to insure getting full requirements of anything that may be short.

We again call the special attention of our customers to the rule of the trade that all orders for growing crops and stock not actually in hand are accepted subject to crop failures, shortages, or other causes beyond control, and the right to advance prices without notice.

SHIPPING

By our careful and thorough system of packing it is customary for our customers to receive their orders from us in perfect condition, but all shipments are made at purchaser's risk, our responsibility ceasing after we deliver the goods in good order to the transportation company.

PARCEL POST.—We will be pleased to send such items as can be mailed by Parcel Post if customers will remit for postage. **We do not deliver any goods free at Wholesale Prices.**

PRICES.—This list cancels all previous offers. The prices quoted in this list are net, and subject to no discounts. Articles offered in our Retail Catalogue and not offered in this list will be supplied to florists at retail prices less the following discounts, viz.

Vegetable and Flower Seeds $33\frac{1}{3}\%$. Small Fruits 20% . All other plants not offered in this list $33\frac{1}{3}\%$.

No order for **plants or bulbs** amounting to less than \$1.00 will be filled and packed at wholesale prices. Orders received from the trade for Plants or Bulbs amounting to less than \$1.00 will be charged for at retail prices, less 10 per cent.

TERMS OF BUSINESS.—Unknown correspondents desiring to open an account will please furnish three references to parties in the trade with whom they have had credit relations, and sufficient time to investigate same, otherwise cash must accompany order.

12 Remittances should be made by Post-Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

12 Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance. No perishable stock will be sent C. O. D.

12 All goods are offered subject to crop failures, shortages or other causes beyond our control and to being unsold on receipt of order, and we reserve the right to advance prices without notice.

12 No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices in Philadelphia.

12 In filling out your order always give **Shipping Directions**, and write **Name and Address Distinctly** on each and every order.

NON-WARRANTY.—Henry A. Dreer, Inc., gives no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any Seeds, Bulbs or Plants they sell, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

ARCTOTIS GRANDIS

Dreer's Famous American Asters

All of our Asters have been grown under our own supervision, and we know that the quality in every case is unsurpassed.

Astermums.

This strain of Giant Comet Asters closely resemble Crego's Giant, but come into bloom fully two weeks earlier. We offer three colors.

	Tr. pkt.	Oz.
White Astermum.	30	\$1 50
Pink "	30	1 50
Lavender "	30	1 50

Beauty Asters.

This recently developed type is a most valuable introduction on account of its late flowering, coming into bloom fully two weeks later than our Superb Late Branching, and furnishing high-grade cut flowers from early October until killing frost in November. The plants are unusually vigorous, from 2½ to 3 feet high. The perfectly double flowers, 4 to 5 inches across, are borne on extra long strong stems and are similar in form to our Superb Late Branching. We offer four beautiful colors:

	Tr. pkt.	Oz.
American Beauty. Rich cherry-rose, similar in color to American Beauty Rose	40	\$2 00
Lavender Beauty. Exquisite soft lavender	50	2 50
Purple Beauty. Rich lustrous deep purple	40	2 00
September Beauty. Delicate shell-pink	50	2 50

Dreer's "Crimson Giant" Aster.

A superb late-branching variety, of upright growth, with perfect double flowers of rich rosy crimson, full of fire. Fine for cutting; showing up well under artificial light. 40 cts. per trade pkt.; \$2.00 per oz.

China Mixed Asters.

A general mixture of all sorts and colors. 15 cts. per trade pkt., 50 cts. per oz.

CREGO'S GIANT ASTER

Crego's Giant Comet Asters.

Magnificent fluffy flowers, averaging over 5 inches across with long strong stems, the finest of this type. Comes into bloom in August, continuing well into September, and unlike most of the Comet sorts, stands when cut and is a good flower to ship. We offer five colors, our own saving, of the highest quality.

ASTERMUMS

Dreer's Famous American Asters

DREER'S
LATE BRANCHING
ASTERS

Dreer's Superb Late Branching Asters.

The finest Asters for late August and September blooming.

The plants form strong, branching bushes, 2 to 2½ feet high, bearing on long strong stems their handsome Chrysanthemum-like flowers, which, under ordinary cultivation, averages 5 inches across. The form of the flowers, together with the length of the stems, places them at the head of Asters for cutting. They come into bloom from two to three weeks after the average type, usually being at their best during September, and filling in the gap between the general run of Asters and Chrysanthemums. We offer eight beautiful and distinct colors, viz.:

	Tr. pkt.	Oz.
Azure Blue. A rich, deep lavender	30	\$1 50
Pure White. Extra fine stock	30	1 50
Shell Pink. An exquisite shade	30	1 50
Rose Pink. A very desirable color	30	1 50
Deep Rose. Rich and brilliant	30	1 50
Deep Purple. Royal deep purple	30	1 50
Lavender. A pale grayish-lavender	30	1 50
Crimson. Very rich rosy crimson	30	1 50
Finest Mixed. All the colors	25	1 00

King Asters.

The "King" Asters form a distinct class or type, and have many sterling qualities to recommend them to lovers of fine Asters. They are of strong, sturdy habit, growing fully 18 inches high, and bear from August to October very large double blossoms, the petals of which are more or less quilled, forming very attractive flowers, which have splendid keeping qualities when cut.

	Tr. pkt.	Oz.
Dreer's Crimson King. A brilliant new color in this type, which originated with us. It is the richest and deepest crimson variety known to us	40	\$2 00
Lavender King. Pale lavender	40	2 00
Pink King. An attractive shade of delicate shell-pink	40	2 00
Rose King. A beautiful brilliant rose variety and a great favorite for cutting	30	1 50
Violet King. This is the original of this type, and is a pleasing soft shade of violet	30	1 50
White King. Pure glistening white; extra fine large flowers	40	2 00
King Mixed. All colors	30	1 50

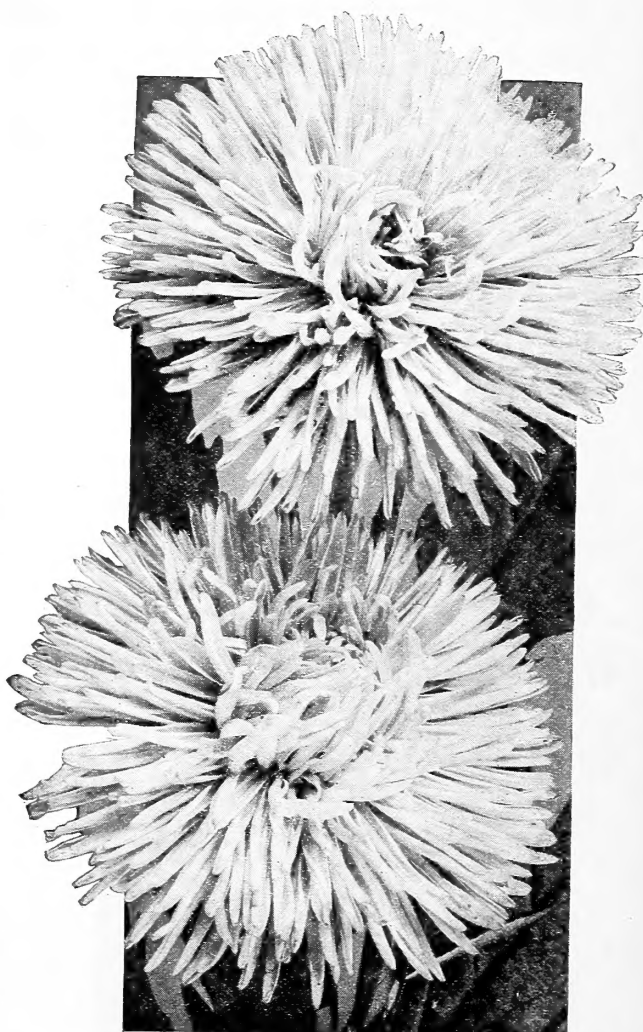

Lavender Gem Aster.

One of the most beautiful early flowering Asters. Of Comet type, with large, artistic loosely-arranged flowers of the most charming shade of lavender imaginable. 40 cts. per trade pkt.; \$2.00 per oz.

Ostrich Feather Asters.

A very desirable form of Comet Asters with large fluffy flowers; blooms from August on.

KING ASTERS

Dreer's Famous American Asters

Dreer's "Peerless Pink" Aster.

This grand Aster may be briefly described as a glorified late branching shell-pink or Mary Semple. It has the same strong, sturdy habit of growth; comes into bloom a little earlier, bears freely almost globular flowers, rarely under 4 inches across and frequently over 5 inches. The color is rich shell-pink, similar in shade but more decided than the late branching. The centre petals are prettily incurved, while the wide outer petals reflex, making a most artistic and finely finished flower, and stands cut longer than any other.

50 cts. per trade pkt.; \$2.50 per oz.

Dreer's "Pink Beauty" Aster.

A magnificent cut-flower variety, in bloom from early August until well on in September; 24 to 30 inches high; flowers average 4 inches across, on long, strong stems. Color a delicate blush pink, and pronounced by experts to be the finest pink midseason sort yet introduced. 50 cts. per trade pkt.; \$2.50 per oz.

Queen of the Market Asters.

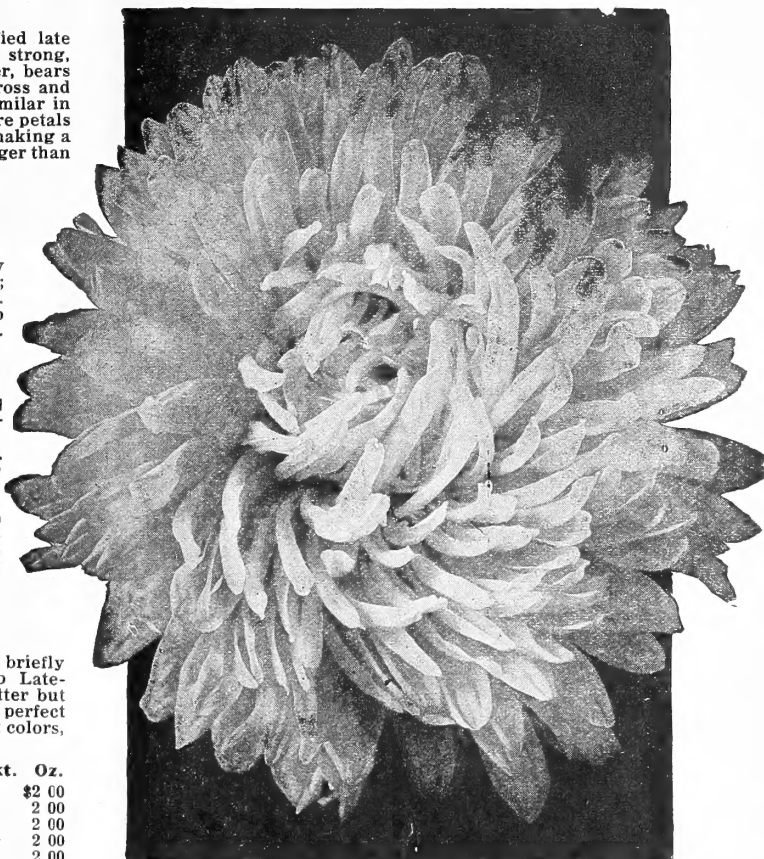

The leading early Asters, of good strong growth and bearing large flowers on long strong stems; begins blooming in July.

	Tr. pkt.	Oz.

Early Branching or Royal Asters.

One of the best Asters of recent introduction, and might briefly be described as an early flowering form of our Superb Late-Branching variety, having all the good qualities of the latter but coming into bloom in July or early August and lasting in perfect condition a long time. We offer six beautiful and distinct colors, viz.:

	Tr. pkt.	Oz.
Lavender. Soft lavender violet	40	\$2 00
Purple. Rich deep violet purple	40	2 00
Rich Rose. Very bright and attractive	40	2 00
Rose Pink. Rosy-pink, shaded white	40	2 00
Shell Pink. Very delicate tint	40	2 00
White. Pure white	40	2 00
Finest Mixed. All colors	30	1 50

DREER'S "PEERLESS PINK" ASTER

New Red Aster "Sensation."

This is the reddest of all Red Asters, the color being a rich garnet or ox blood red which glistens in the sunshine like a live coal. The plants are of free-branching habit about 18 inches high; the very double flowers, averaging 3½ inches across, are borne freely on stems a foot long from early in August till the close of September. The intense color shows up well when cut, and makes a very brilliant bit of color in a bed or border. 40 cts. per trade pkt.; \$2.00 per oz.

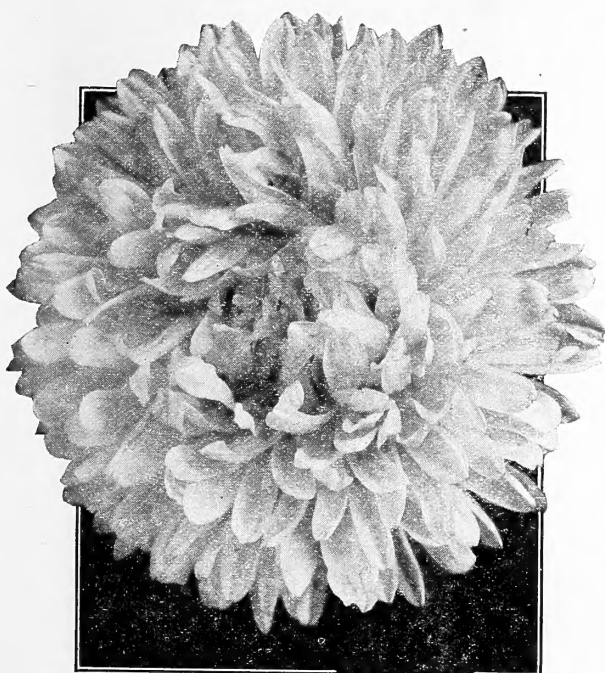

Improved Daybreak or American Victoria Asters.

The beautiful and popular pink variety "Daybreak" was the original of this type followed by "Purity" and the other colors offered below. As a class they are characterized by their even, symmetrical growth and free flowering qualities which make them the finest of all Asters for bedding and very desirable for cutting; blooms from early August till late October.

	Tr. pkt.	Oz.
Daybreak. Delicate La France pink	50	\$2 50
Purity. Snow white	50	2 50

CROTON

Bougainvillea.

Crimson Lake. Introduced through the Bureau of Plant Industry, of the Department of Agriculture, at Washington, D. C. It originally having been received from the Department of Science and Agriculture, Georgetown, Demerara, British Guiana, without specific or varietal name, it simply being labeled "Crimson Bougainvillea." Some one, for distinction, called it "Crimson Lake," which name is, at least, descriptive of its rich, beautiful coloring.

The flowers, in shape and size, are not unlike all other Bougainvilleas, perhaps a trifle larger, but in coloring none will compare with it in richness and brilliancy. On first opening the flowers are of a brilliant crimson-lake, retaining this color for three or four weeks or more, after which they gradually pass to a crimson-carmine.

In semi-tropical climates, such as Southern California and Florida, the Bougainvilleas make gorgeous climbers for out-door planting, while in the North they are useful subjects as pot-plants for the conservatory or greenhouse. For this purpose they may be trained over a trellis of any shape, or they may be kept cut back or pinched so as to form shapely, bushy plants.

3-inch pots, 50 cts. each; \$5.00 per doz.; \$40.00 per 100.

Crotons.

We aim to supply the best possible value in size and quality of plants. Our collection embraces the best American and European varieties suitable for commercial purposes.

An increasing demand for Crotons for basket work at Easter, as well as for porch and window boxes in May and June, has induced us, this season, to select as most suitable for this purpose, the two varieties, Baroness James de Rothschild and Norwood Beauty, both strong growing, hardy sorts, which we will be prepared to supply in strong plants as noted below.

Baroness James de Rothschild. Bright red, broad leaved, shaded dark bronze and green.

Norwood Beauty. Oak-leaved, yellow, red and green.

Price. Either of above varieties, 3-inch pots, 12 to 15 inches high, \$6.00 per doz.; \$50.00 per 100.

BOUGAINVILLEA CRIMSON LAKE

DREER'S SELECT CANNAS.

We aim to supply the "World's Best Varieties" of Cannas, irrespective of source of origin, but it is most gratifying to note the predominant rank which is now held by American-raised varieties.

The prices here quoted are for strong 2- to 3-eye, fresh-cut divisions, of which delivery can be made at any time before April 1st, after which date only well-established growing plants from 3-inch pots can be furnished.

The increasing demand for started Cannas has induced us to specialize in these, and we are preparing a large stock of 3-inch pot-plants for delivery after April 1st.

The average florist, who prepares for the demand for Easter plants, will find this well-established stock, of which we can make delivery immediately after Easter, a profitable investment. The plants will be in proper condition to shift at once into 4- or 5-inch pots, thus making ideal plants for retailing at bedding-out time.

PRICES.

The prices here quoted are for dormant 2- to 3-eye divisions. The price for well-established 3-inch pot-plants will be as follows: All varieties priced at \$8.00 per 100 or less in dormant roots will be supplied in pot-plants at the uniform rate of \$1.25 per doz.; \$8.00 per 100; \$70.00 per 1000; but on all varieties listed above \$8.00 per 100, the price of both dormant roots and pot-plants will be the same.

All have green foliage unless otherwise specified.

CIBOTIUM SCHIEDEI.

CYRTOMIUM ROCHFORDIANUM COMPACTUM

DREER'S FINE FERNS

Varieties of Special Merit. General Collection Offered on page 36

Adiantum Farleyense Gloriosum.

The Glory Fern.

This splendid Fern which so closely resembles Adiantum Farleyense in appearance and which does not require the special skill and care in growing that is necessary to produce good plants of A. Farleyense, has quickly made a place for itself, not only on account of the fact that it can be produced for little over half that of growing Farleyense, but also because either in a cut state or as plants used in decorative work, it will outlast the old variety ten to one making it an available subject where Farleyense can not be used at all.

We are now booking orders for June delivery. Good 2½-inch pots, \$12.00 per 100; \$110.00 per 1000.

Adiantum Farleyense Lemkesi.

The Bronzy-Pink Leaved Glory Fern.

This is the newer bronzy-pink leaved form of the Glory Fern which is preferred by many to the original type, with which it is identical in general habit except that the young foliage is beautifully tinted with a bronzy-pink color, more intense than any other variety of Adiantum, it is also of somewhat taller and stronger habit of growth than the original type.

We are now booking orders for June delivery for strong 2½-inch pots, \$15.00 per 100; \$140.00 per 1000.

Alsophila Australis.

A limited stock of this quick growing Australian Tree Fern. 3-inch pots, \$2.50 per doz.; \$18.00 per 100.

Cibotium Schiedei.

A splendid stock of this great decorative variety.

Cyrtomium Rochfordianum Compactum.

The Improved Popular Holly Fern.

This is a splendid compact growing and best form of Cyrtomium Rochfordianum that is valuable either as a small plant or for growing on as a specimen plant.

We offer a fine lot of 2½-inch pots, \$6.00 per 100; \$50.00 per 1000.

Nephrolepis.

Boston. 6-inch pots \$1.00 each

Polypodium Mandaianum (Seedling Plants).

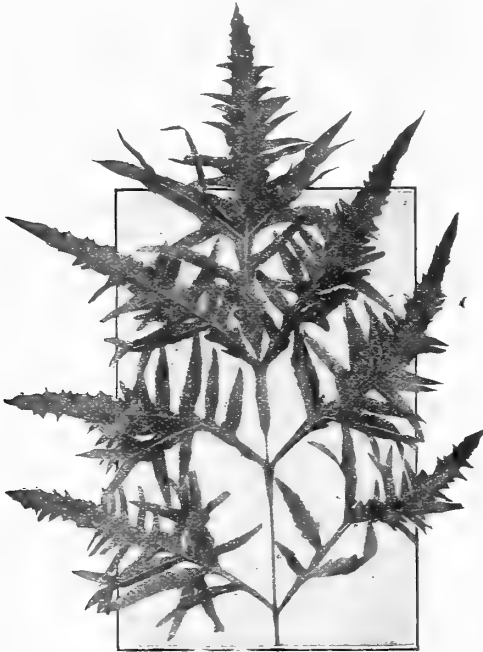

This beautiful Fern originated as a seedling of *P. Aureum* and is similar in habit of growth to its parent, producing on well-grown plants fronds from 2 to 3 feet long, on which all of the pinnæ is beautifully fringed or laciniated; entirely distinct from all other varieties. It makes a handsome specimen grown either in a pot or a hanging-basket. We offer plants grown from spores, which while varying from the type as sent out originally is a very desirable form.

2½-inch pots, \$1.50 per doz.; \$10.00 per 100

DRACÆNA INDIVISA

Dreer's Select French Hydrangeas

For Easter and Memorial Day Forcing

Our Hydrangeas specially prepared for forcing are this year of a very superior quality, well branched and thoroughly established and properly ripened. The late date of Easter, 1922, makes it possible to start these plants up at any time in January and bring into bloom nicely for Easter, while for Memorial Day, February and March starting will bring them out in fine shape. We can still supply practically complete assortments in the following sizes:

3-inch pots, our selection of varieties, \$2.00 per doz.; \$15.00 per 100

Hydrangea Otaksa.

With the increased popularity of the Hydrangeas the old popular Otaksa has also more than held its own, the demand for it at this time being greater than ever.

We offer a full line of sizes as under.

Double Flowering Hydrangea.

Domotoi.

We understand this to be a sport from Otaksa which it resembles in vigor, growth and time of flowering, but with decidedly double flowers, the individual floret resembling in form a medium sized double Balsam. A real acquisition that has impressed us and all who have seen it in flower as being particularly meritorious.

2-inch pot plants, \$3.50 per doz.; \$25.00 per 100.

Gloriosa (Climbing Lily).

Superba. Strong tubers. 35 cts. each; \$3.50 per doz.

Hypericum Patulum Henryi.

A most valuable shrub of comparatively recent introduction, it forms naturally strong bushy symmetrical plants from 2½ to 4 ft high, producing masses of large, clear yellow flowers, 2 inches or more in diameter, during July and August. It retains its neat foliage, which makes the plant very attractive even when not in flower, until very late in the autumn.

We offer strong two-year old plants, \$2.50 per doz.; \$18.00 per 100.

We can also supply fine young stock for lining out 2¼ inch pots, 85 cts. per doz.; \$6.00 per 100; \$50.00 per 1000.

Cut-Leaved English Ivy

Hedera Helix Gracilis.

A distinct small leaved form of the English Ivy, the edges being deeply lobed makes a most desirable graceful plant useful for many purposes where the heavy foliage of the regular type is less desirable. 3-inch pots, \$2.00 per doz.; \$15.00 per 100; 4-inch pots, \$3.50 per doz.; \$25.00 per 100.

Lagerstroemia (Crape Myrtle).

This is one of the prettiest shrubs, and while hardy south of the Potomac, requires protection in this latitude. All, however, that is necessary is to winter the plants in a cellar or similar position where they will be protected from very severe weather. Grown in large pots or tubs, specimens 6 to 8 feet high can be produced with little difficulty, and which for two or three months in the summer will be covered with flowers.

Indica. Delicate soft pink.

" **Alba.** White.

5-inch pots, 50 cts. each; \$5.00 per doz.

Nandina Domestica.

Very handsome small shrub hardy as far north as Philadelphia, growing about three feet high with graceful light-green foliage which turns to a most attractive bronzy red early in the autumn. The small white flowers are produced in good sized erect panicles in spring, followed by bright red berries. Strong young plants 35 cts. each.

Pandanus Veitchi.

Good 6-inch pots, \$1.50 each.

Passiflora (Passion Flower).

Princeps. This is the rare greenhouse variety with bright red flowers; strong plants. 30 cts. each; \$3.00 per doz.

Plumbago.

Coccinea Superba. A useful fall and early winter flowering plant with long spikes of showy satiny carmine flowers, 3-inch pots, \$1.50 per doz.; \$10.00 per 100.

Pennisetum (Fountain Grass).

The Pennisetums are now largely used as borders to beds of Cannas, Caladium Esculentum and other tall-growing plants and are becoming more popular each season.

Rueppelianum (Purple Fountain Grass). A beautiful variety, growing about 2½ feet high; graceful green foliage and purplish plumes. 2¼-inch pots, ready May 1st. \$1.00 per doz.; \$7.00 per 100.

6-inch pots, bushy plants, 24 to 30 inches high, fine stock, \$1.50 each.

COCOS WEDDELIANA

Cocos Australis or Bonnetti.

A very hardy Palm, similar in general appearance to Phoenix Canariensis, but more graceful, with glaucous or blue-green foliage; a most valuable subject for large halls, hotel lobbies, or even for use on lawns, it standing full exposure to the sun without injury.

We offer a nice lot of specimen plants.

Phoenix Rœbeleni.

We are now, for the first time since 1914, again in position to offer young plants from 2 1/4-inch pots, no seeds having been available between 1914 and 1920. These are thrifty young plants, just about ready to develop leaves showing character. \$3.50 per doz.; \$25.00 per 100.

We also offer 7-inch tubs, \$2.50 each; 8-inch tubs, \$3.50 each.

Golden Variegated Privet.

We have a nice lot of bushy, 12 to 15-inch high, field-grown plants of this ornamental Golden Privet, which is purchased by many florists, who pot it up into 5 and 6-inch pots and grow it on for use in window and porch boxes for spring and summer, for which purpose it makes a very acceptable plant.

\$3.50 per doz.; \$25.00 per 100.

Salvia Splendens America.

(Scarlet Sage).

The finest of all the Salvias, the earliest, freest and most continuous bloomer and the most uniform in habit of growth. 3-inch pots ready May and June. \$1.00 per doz.; \$7.00 per 100.

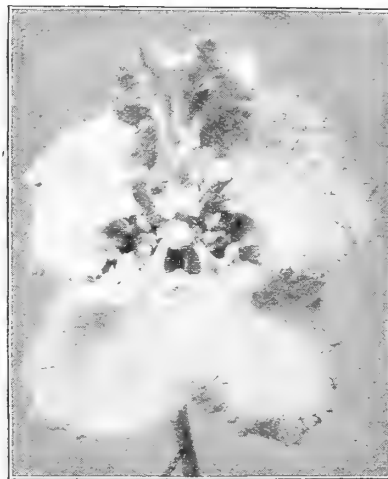

Stigmaphyllon Ciliatum.

(Brazilian Golden, or Orchid Vine).

One of the prettiest tender climbers in cultivation, with large yellow, orchid-like flowers, produced very freely during the summer months. It is especially adapted for training over the pillars or on the wall of a conservatory, but will do equally well in the open air. 15 cts. each; \$1.50 per doz.

Thunbergia.

Harrisii. A splendid winter-flowering greenhouse climber, with showy light-blue flowers with creamy-white throat. 35 cts. each; \$3.50 per doz.

SPECIALS IN ROSES

Hybrid-Tea Rose Los Angeles

(Howard & Smith 1917).

This season we have not only a very prime stock of this popular Rose, but also an exceptional large stock, sufficient we believe to take care of all orders which has not been the case in former seasons. Strong 2-year old budded plants 75 cts. each.

New Hybrid-Tea Rose, William F. Dreer

(Howard & Smith 1920).

A beautiful Rose of the same parentage as Los Angeles and which, for delicacy of coloring, is not comparable to any other variety, it reminding one of the delicate tints of some varieties of water lilies. The flowers, which are similar in shape to Los Angeles, and like that variety, beautiful in all stages of development, are at their best in the half-expanded flower. These, in expanding, are of a soft silvery-shell-pink. The base of the petals of a rich golden-yellow which at certain stages of development, gives a golden suffusion to the entire flower, this golden suffusion being particularly brilliant early and late in the season.

Messrs. Henry Morse & Son, Rose Specialists, of Eaton, England, commenting on this variety, write: "We think you should know our opinion of your wonderful Rose William F. Dreer. We have tested it by the side of seventy other novelties from various raisers all over the world and we have come to the conclusion that this Rose takes the highest place and is a sterling novelty worthy to rank by the side of its relative Los Angeles. We predict a great future for it."

At the great Scotch Horticultural Show, summer of 1921, Messrs Hugh Dickson, of Belfast, Ireland, were awarded the Gold Medal for a vase of William F. Dreer.

Price, strong 2-year old budded plants, \$1.50 each.

NEW AMERICAN HYBRID-TEA ROSE
WILLIAM F. DREER

Hybrid Tea-Rose—Rose Marie.

(Dorner, 1918).

Rose Marie was practically lost sight of as it did not make good as a forcing proposition, fortunately we saw it tried out for outdoor planting for which purpose it has proven to be one of the best. It is of a most pleasing shade of clear rose-pink, with ideal long shapely buds which open to a large good formed flower. We consider it among the best of our bedding roses. Strong two-year old budded plants, 75 cts. each.

New Irish Hybrid-Tea Rose.

Una Wallace (McGredy, 1921).

One of McGredy & Sons latest introductions of which we can fully endorse the originator's description, "This Rose created quite a sensation at the National Rose Society's Autumn Show. The color is what we would call an art color, quite distinct from any other Rose, and for effective decorative work it has no equal. It is a beautiful soft even toned cherry-rose without shading. In depth, formation and substance it is faultless, every bloom coming perfect and quite full on long wiry stems. Sweetly perfumed. Strong budded plants, \$2.00 each.

New Irish Hybrid-Tea Rose.

J. G. Glassford (Hugh Dickson, 1921).

We are pleased to offer this new Irish introduction which in our trials in California during the past season has been greatly admired. The following is the introducers description:

Very vigorous, free branching growth, large dark green foliage. Flowers of the largest size and of immense depth of petal; buds long and pointed, opening to flowers of great weight and substance, with high pointed centre. The petals are very large and of fine texture, nicely reflexed at the edges. Color clear deep crimson lake without shading—a clear solid color which does not fade and which is quite unique in Roses. Awarded Gold Medal by the Royal Horticultural Society of Ireland and also by the Scottish Rose Society. Strong two-year old plants, \$2.00 each.

HYBRID-TEA ROSE LOS ANGELES

SPECIALS IN ROSES

Pernet-Ducher's

New Yellow Hybrid-Tea Rose (Pernetiana Type).

Souvenir de Claudius Pernet

In this new variety we undoubtedly have one of Mr. Pernet-Ducher's masterpieces. We are indebted to this veteran French Rose specialist for so many of our important varieties, and the fact that Mr. Pernet-Ducher has selected this variety and named it in memory of his son Claudius who gave his life in the World War is ample evidence of his own estimate of this great Rose.

We give below Mr. Pernet-Ducher's own description all of which we can indorse from our own observations during the past season.

"A most vigorous grower of erect branching habit, beautiful brilliant green foliage; few thorns; long pointed buds of exquisite shape, carried on long stiff stems. Very large full-flowers with elongated deep petals, a beautifully formed bloom. Color most striking sunflower-yellow, deeper in the centre, without any color blending and which is retained without fading even in the warmest weather.

It was awarded the Gold Medal at the Bagatelle Garden trials in 1920 and in the same year also received the Gold Medal at the Rose show in Paris, and at Antwerp.

Strong budded plants ready for delivery April 15th, \$3.50 each. The stock is limited and orders will be booked in rotation as received.

New Rugosa Hybrid Rose

F. J. Grootendorst (Grootendorst, 1919).

This is a new type of Rose which might properly be called a Rugosa Baby Rambler, it being a cross between Rugosa and the crimson Baby Rambler. Imagine a shrub-like Rugosa Rose covered with trusses of crimson Baby Rambler Roses and you will have a fair conception of this new hybrid variety. It is not a Rose that you want to plant in with your bed of Hybrid-Tea or Hybrid Perpetual Roses, but is valuable to plant as an isolated specimen or in a mass in a bed in an exposed position or among shrubs in the shrubby border or use it for an everblooming hedge for which purpose it is admirably adapted. It is absolutely hardy and continues in bloom until late in the fall.

Strong 2-year old plants, 75 cts. each.

NEW CLIMBING ROSE PAUL'S SCARLET CLIMBER

GORGEOUS NEW CLIMBING ROSE PAUL'S SCARLET CLIMBER

This is without question the most important addition to our list of Climbing Roses in many years; no other Rose in any class can compare with it for brilliancy of color, which is a vivid scarlet that is maintained without burning or bleaching until the petals fall. The flowers are of medium size, semi-double, very freely produced in clusters of from three to twenty flowers each on much branched canes, the plants being literally covered with flowers from top to bottom. It is of strong climbing habit and perfectly hardy. It was awarded a Gold Medal by the National Rose Society and an award of Merit by the Royal Horticultural Society of England, and was also awarded during the summer of 1918 the much coveted Gold Medal at the Bagatelle Gardens, Paris.

We have distributed many thousands of Paul's Scarlet Climber, and we have yet to hear from a single person who has been dissatisfied with it. The price last spring was \$2.00 each, but we have prepared an immense stock of it for this season's sale which enables us to offer extra heavy two-year old plants at 75 cts. each.

New Trailing or Climbing Rose.

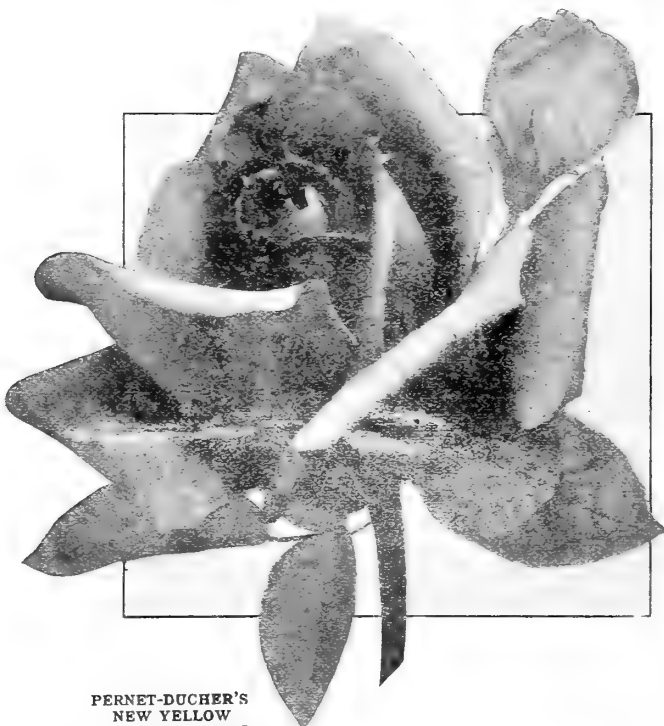

Max Graf (Bowditch).

Presumed to be a cross between Rosa Rugosa and Setigera, with large attractive single bright pink flowers not unlike the pink form of Rugosa, but with the petals more crimped which adds to its attractiveness. It makes an excellent climber on pillar rose but it appeals to us more particularly as a ground cover for which purpose it is superior to any of the Wichuraiana varieties. The glossy foliage resembling Rosa Rugosa is retained very late in the season and is practically immune to mildew, black spot and insects, and is perfectly hardy. For planting on a steep bank or for trailing over a stone wall it has no equal.

Strong, two-year old plants, 75 cts. each.

General List of Roses for Out Door Bedding.

We anticipate to again have ready this spring a good line of budded Roses established in pots and of exceptional quality for out door bedding such as we supplied to the trade prior to plant import prohibition time. A list of this stock with prices will be ready in April.

(Hawthorn Scented Mugwort.)

Unlike the other varieties offered which are grown for their foliage, this introduction from China is a most effective flowering plant, with erect stems $3\frac{1}{2}$ to $4\frac{1}{2}$ feet high, clothed with elegantly cut dark green foliage and terminated by panicles of Hawthorn-scented creamy white Spiræa-like light and graceful flowers. It is at its best from the latter part of August to the end of September, and is particularly valuable on this account, being unlike any other plant in bloom at that time. \$2.00 per doz.; \$15.00 per 100.

ARTEMISIA LACTIFLORA

Two New Hardy Asters.

Maggie Perry. Very large flowers frequently $2\frac{1}{4}$ inches across, loosely arranged in large trusses, of a pleasing tone of a soft mauve. One of the most distinct and striking novelties in this family and probably the forerunner of a new type. 20 cts. each; \$2.00 per doz.; \$15.00 per 100.

Perry's White. Undoubtedly the finest white Michaelmas Daisy yet introduced, perfect in habit of growth and remarkably free flowering. The stout stems of a bronzy-crimson color are well branched and covered with well shaped flowers $2\frac{1}{4}$ inches in diameter, with broad white petals and golden-yellow centre, after full development this golden centre changes to a maroon crimson, the flowers then forcibly reminding one of a Cineraria. 20 cts. each; \$2.00 per doz.; \$15.00 per 100.

New Late Flowering Japanese Aster.**"Mauve Cushion"**

An entirely distinct species of hardy Aster which has attracted much attention in our grounds on account of its unique habit of growth, its lateness of flowering, and its great floriferousness.

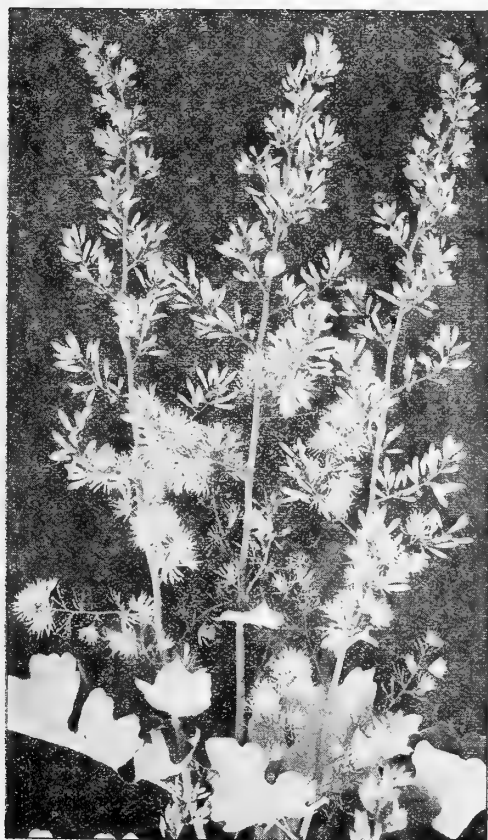

It forms a circular cushion-like plant $2\frac{1}{2}$ feet in diameter, the centre of the plant rarely exceeding 9 inches in height, gradually tapering off to 3 or 4 inches at the edges. The flowers, of a delicate soft mauve with silvery white reflection, measure over $1\frac{1}{4}$ inches in diameter and are produced in such profusion as to completely cover the plant; these begin to expand early in October, but are not at their best until November and continue in good condition until the middle of that month. 20 cts. each; \$2.00 per dozen; \$15.00 per 100.

|| New Giant-Flowering Marshmallows.

A wonderfully improved form of our greatly admired native Marshmallow or Rosemallow, in which not only the colors have been greatly intensified but in which flowers of enormous size, frequently 10 to 12 inches in diameter, have been developed.

These plants can be highly recommended for all kinds of plantings, they appear to be equally at home in all positions, having the same vigor in dry and wet ground and are perfectly hardy, they grow from 5 to 8 feet high and are very floriferous, blooming from early in July to late in Autumn. We offer three distinct colors. Red, Pink and White, in strong two-year-old roots. 20 cts. each; \$2.00 per doz.; \$15.00 per 100.

Dreer's Superb Hollyhocks.

We have this season a fine lot of strong clean, healthy, vigorous one-year-old flowering plants of the finest strain as under:

Iris Interregna.

An interesting new type, the result of crossing *I. germanica* with *I. pumila hybrida*. They bloom earlier than the Germanica Iris, and the flowers combine perfection of form with large size and clear and decided colors. The foliage is dwarf, and maintains its freshness throughout the season. The flower stems are almost 18 inches high, holding the flowers well above the foliage.

Helge. Light citron, with pearl-colored centre.

Spectabilis. Rich, free flowering violet-purple.

Walhalla. Standards rosy-lavender, falls velvety claret-red. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Iris Pumila Hybrida.

A type which originated by crossing the dwarf early flowering Pumila Iris with the Germanica varieties, they are among the earliest flowering and are very showy, growing from 10 to 12 inches high.

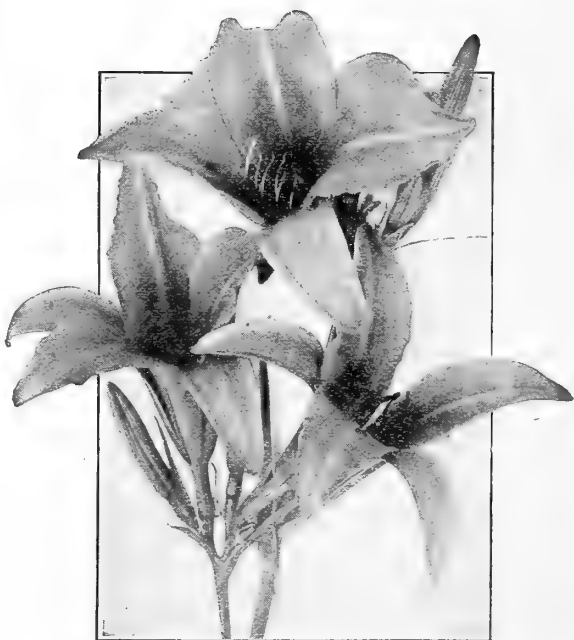

Cyanea. Rich royal purple, with blackish shadings.

The Bride. A large showy pure white.

HEMEROCALLIS (DAY LILY)

Superb New Iris Germanica

A splendid collection of the latest introductions.

King of Iris. A striking novelty, with flowers of perfect form, the standards clear lemon color, falls deep satiny-brown, with a broad border of golden-yellow.

Lohengrin. Foliage and flowers of gigantic size, with petals 2 inches wide, of a deep violet-mauve.

Loreley. Perfect-shaped flowers, falls of a deep ultramarine-blue, more or less veined with creamy-white and bordered sulphur-yellow, making a beautiful contrast.

Mithras. Flowers of good size, standards pale yellow, falls violet, shaded with claret and yellow border.

Nibelungen. Standards fawn-yellow, falls violet-blue, with fawn margin; distinct and pretty.

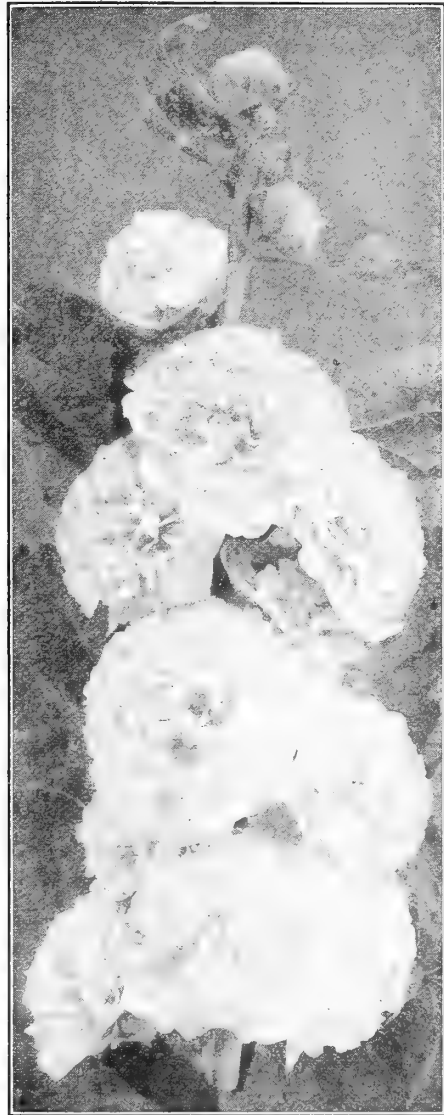

Princess Victoria Louise. Standards pure sulphur-yellow, falls rich plum color, with cream-colored edges.

Rhein Nixe. Standards pure white, falls deep violet-blue with white margin; attains a height of 3 feet with many branched stems.

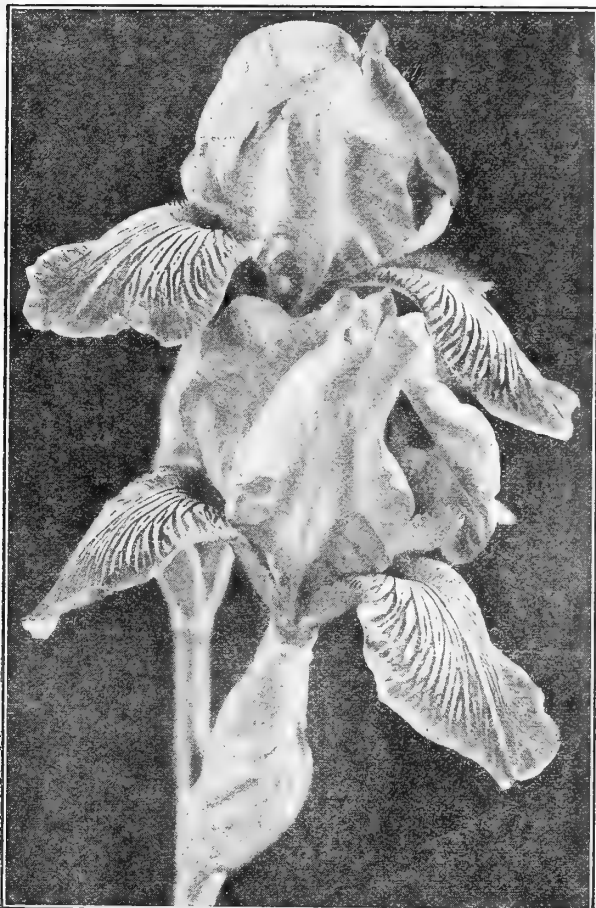

Price. Any of the above, 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Golden Yellow Iris Germanica

"Sherwin-Wright" In this grand variety we have what has long been wanted, a good vigorous growing, free-flowering, golden yellow Iris Germanica, the few yellow sorts now in commerce being deficient in these important characteristics. The plants grow about two feet high; the flowers which are produced in lavish profusion are of splendid texture and stand well above the foliage, and are of a rich golden yellow without markings or shadings. 20 cts. each; \$2.00 per doz.; \$15.00 per 100.

Select Hardy Vines and Climbers

Notice. The following varieties of Hardy Climbers, Ampelopsis, Bignonias, Honeysuckles, Celastrus, Polygonums, and Lycium, while in a dormant condition during winter and early spring are sent out with bare roots without soil. As the season advances we can usually supply all of these varieties in pot plants with the ball of soil intact.

Ampelopsis Veitchii.

Two-year field grown plants, \$2.50 per doz.; \$18.00 per 100.

Ampelopsis Virginica (Virginia Creeper).

Strong, 2-year-old field grown plants, \$2.50 per doz.; \$18.00 per 100.

Ampelopsis Engelmanni

Strong, 2-year-old field grown plants of this most useful variety, \$2.50 per doz.; \$18.00 per 100.

Ampelopsis Lowi

A splendid variation from the popular Boston or Japan Ivy, possessing all the merits of the parent, being perfectly hardy, clinging to the smoothest surface without support, and with much smaller foliage, which is deeply cut, giving it a grace and elegance entirely distinct from the old type. In Spring and Summer the leaves are a bright, fresh Apple-green color, changing in the Autumn to various brilliant tones of orange, crimson and scarlet. 3-inch pots, \$3.50 per doz.; \$25.00 per 100.

Ampelopsis Tricolor

(Vitis Heterophylla Variegata)

Strong, 4 inch pots, \$2.00 per doz.; \$15.00 per 100.

Bignonia (Trumpet Creeper).

Radicans. Strong, plants, 25 cts. each; \$2.50 per doz.

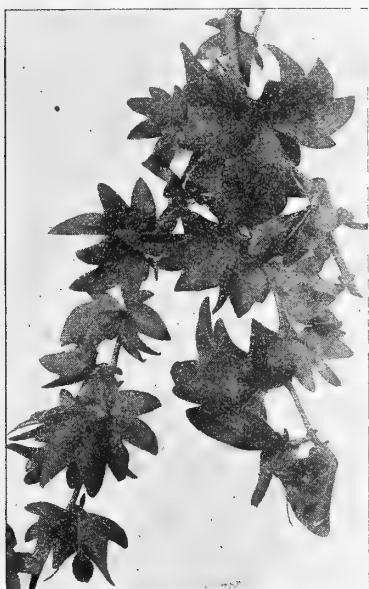

Celastrus Scandens (Bitter Sweet or Wax Work).

Strong, plants, \$2.50 per doz.; \$18.00 per 100.

Clematis Paniculata (Japanese Virgins Bower).

We, and no doubt every other grower and planter of Clematis Paniculata, have frequently met with serious losses in the transplanting of field grown stock, and the larger and older the plants are the more serious the losses; this has determined us to offer these only in pot grown plants hereafter in which no losses will occur and quicker results will be obtained.

Strong, 3-inch pots, \$1.50 per doz.; \$10.00 per 100; \$90.00 per 1000.

AMPELOPSIS LOWII

CLEMATIS PANICULATA

Clematis Montana Perfecta.

Of stronger growth than any other Clematis and succeeds under the most adverse conditions, and is perfectly hardy. Its flowers which resemble the Anemone or Windflower, are snow-white 1½ to 2 inches in diameter, and frequently begin to expand as early as the last week in April continuing well through May, and are produced in such masses as to completely hide the plant. It is the best of the very early spring flowering climbers, of which there are but few. 75 cts. each; \$7.50 per doz.

Evonymus Kewensis.

A new variety with very small dark green foliage. Everyone who sees this appreciates its value as a rock plant or ground cover. 3-inch pots, \$1.50 per doz.; \$10.00 per 100; \$90.00 per 1000.

Evonymus Radicans.

Strong, 3¼ inch pots, of this desirable green cover plant. \$1.50 per doz.; \$10.00 per 100.

Evonymus Radicans Variegata.

Good 3-inch pot plants of this useful variegated form. \$1.50 per doz.; \$10.00 per 100.

Evonymus Radicans Vegeta.

A large leaved form, fine for covering walls. Strong, 3¼-inch pots, \$1.50 per doz.; \$10.00 per 100.

Select Hardy Vines and Climbers—Continued

POLYGONUM

New Chinese Honeysuckle Henryi.

Introduced from China, where it has been found at an altitude of 6000 feet. It is hardy, and its foliage is almost evergreen. The flowers, which are produced in graceful panicles in early summer, are entirely distinct; a peculiar, bronzy-red color. Strong. 4-inch pot plants, 35 cts. each; \$3.50 per doz.

Polygonum Auberti.

(Silver Lace Vine).

A splendid hardy climber of strong, vigorous growth, attaining a height of 25 or more feet, producing during summer and fall great foamy sprays of white flowers, and a well established plant during its long period of flowering is a great mass of bloom. Not only does it thrive well in the eastern and middle States but we have seen it in equally good condition in Oregon, Colorado and California, adapting itself to the most varied climatic conditions.

Strong plants, \$4.50 per doz.; \$35.00 per 100.

Vitis Humulifolia.

(Turquoise-berry Vine).

One of the most desirable very hardy climbers, with glossy-dark green leaves, which are insect and disease proof, always presenting a clean, fresh appearance. In late summer and fall the plant is loaded with berries, which are very attractive in the various stages of ripening, passing through many shades of blue, finally turning blue-black.

4-inch pot plants, \$2.00 per doz.; \$15.00 per 100.

Vitis (Ampelopsis) Henryana

A recent introduction from China, with foliage similar to but not as large as the Virginia Creeper, the leaves being of greater substance, and prettily variegated. The ground color is deep velvety-green, the midrib and principal veins of silvery white. The variegation is most pronounced in the Autumn, when the green ground color changes to red. 5-in. pots, \$3.50 per doz.; \$25.00 per 100.

Wheel Hoes, Cultivators and Seeders

Much of the tedious, back-breaking seeding, weeding and hoeing are eliminated by the use of adjustable wheel tools. Being light and simple in construction, they are practical tools for women and children. Market Gardeners use them, making possible accurate sowing and thorough cultivation in rows too narrow for horse tools.

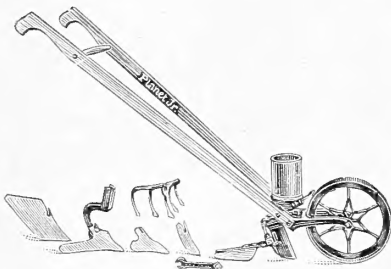

Send for a Planet Jr. Catalogue. It is possible to list only a few of these tools here since the line includes a very complete assortment of hand tools and horse tools, both for one horse and two horses.

NO. 19 PLANET JR. SINGLE WHEEL HOE

NO. 31 PLANET JR. COMBINED DRILL SEEDER AND SINGLE WHEEL HOE

NO. 4 PLANET JR. COMBINED HILL AND DRILL SEEDER AND SINGLE WHEEL HOE

No. 16. Single Wheel Hoe.

Designed to do all work required in the small garden: plowing, cultivating, hoeing and raking. It is very light, and can therefore be easily carried about. . . \$9 25

No. 17. Single Wheel Hoe.

Identical with No. 16, excepting that the two rakes and leaf-guard are not supplied. \$7 75

No. 19. Single Wheel Hoe.

Designed to do all the work that No. 16 will do, but is of cheaper construction. \$6 00

No. 12. Double and Single Wheel Hoe Combined.

The arch is high enough to straddle a row until plants are 20 inches high; this insures close work. It can be altered into an admirable single wheel hoe for working between rows.

Price. \$11 00

No. 31. Combined Drill Seeder and Single Wheel Hoe.

This machine is thoroughly well made and offered at a price that makes it pay the very small gardener. Holds 1 quart. Price. \$11 50

No. 4. Combined Hill and Drill Seeder and Single Wheel Hoe.

The small grower should select one of the combined machines. The drill attachment will not be used as often as the hoeing and cultivating tools, but will be a source of much saving. This machine is a special favorite. There are probably more of them in use in the world than any other seeder made. As a Hill and Drill Seeder it opens the furrow, deposits the seed, covers it and rolls it, either in drills or hills. Holds $2\frac{1}{2}$ quarts. . . . \$18 00

No. 25. Combined Hill and Drill Seeder, Double and Single Wheel Hoe.

This machine as a seeder is practically the same as No. 4; sows in drills or drops in hills 4, 6, 8, 12 or 24 inches apart. Holds $2\frac{1}{2}$ quarts. Price. \$21 50
